Portuguese (native)

## Profile

A person with positive thinking, demonstrating resilience and the ability to maintain clarity and focus during complex and challenging tasks. A strong believer that we learn from mistakes and this is what makes us stronger.

## Employment History

### Frontend Developer, Ambassadors, Amsterdam

2021 — Present

Work on Cube's dynamic templating system, setting up and creating the user interface of templates. And as part of creative automation team, we help brands create video and image marketing content at scale.

I've been instrumental in creating immersive and visually captivating video experiences for clients.

Rolling up my sleeves in the tech playground, I've been diving deep into React, JavaScript, HTML, CSS, Figma, GitLab – basically, my coding toolkit. Crafted some serious frontend wizardry to meet the specific needs of big shots like Booking.com, bol.com, Dyson, N26.

### Front-End Web Developer, DutchDrops, Haarlem

2020 — 2021

Worked as a frontend developer for an e-commerce company, specializing in the Shopware platform. Developed and maintained the frontend of the e-commerce platform using React, JavaScript, HTML, CSS, GitHub. Customized Shopware templates to achieve a consistent and branded look, ensuring a seamless user experience.

Integrated and customized plugins to enhance platform functionality, utilizing Shopware APIs for tasks such as product information retrieval, shopping cart handling, and user account management.

I was also responsible for testing the website thoroughly, including tasks such as creating accounts, testing the payment process, and ensuring overall functionality met requirements.

Optimized website performance through responsive design and various optimization techniques.

### Front-End Web Developer, Hellenique, Putten

2020 – 2020

One-month internship where I could work with PHP, CSS, HTML, JavaScript, and WordPress taking design decisions and building web pages on WordPress platform with a vast of different plugins.

**Nanny, Bem Casado, Benschop**

2018 – 2019

I took care of 3 children, age 2, 4 and 5 years, speaking only Dutch with them. Preparing meals, doing activities to use the mind and the same time being fun. I took care of the hygiene part (shower, wash clothes).

## **Education**

**Full-stack Academy Web Developer, Codaisseur, Amsterdam**

2020 – 2020

The Codaisseur Academy is an immersive course that teaches full stack web development using JavaScript (ES6), React - UI, Redux, Express, Node.js, RESTful API, PostgreSQL, Docker, HTML5, CSS3. Project workflow includes code reviews and quality assessments, basics of UX design and data modelling and always using modern development tools such as Visual Studio Code, Slack, Git & Github. Working with team projects and individual projects.

**Nursing, University of Jaguariuna, Brazil - Jaguariuna**

2014 – 2017

I studied basic life support, bloods and cannulations, manual handling, body systems such as the cardiovascular, alimentary and respiratory systems, healthcare ethics and law.
